

MONAVIE RVL™ NUTRITION SNACK BAR

PRODUCT INFORMATION PAGE

For use in the United States and Canada only.

Indulge your taste buds without compromising your goal weight. MonaVie RVL Nutrition Snack Bars are delicious and nutritious. Featuring 24 vitamins and minerals, these low glycemic, antioxidant packed bars promote overall health and well being. Plus, they taste so good, you won't believe they're part of your weight management plan. Satisfy your hunger between meals with a scrumptious MonaVie RVL Snack Bar today.

KEY BENEFITS

- Satisfies hunger and cravings
- Helps limit unhealthy snacking
- Delivers convenient nutrition
- Supports overall health and well being
- Provides an array of macro-, micro-, and phytonutrients

WEIGHT MANAGEMENT PROGRAM

- Step 1: Combine one scoop of MonaVie RVL Nutrition Shake Mix with 8 ounces of water or milk for your breakfast and/or lunch. If desired, you may also add two ounces of your favorite MonaVie® juice.
- Step 2: Enjoy one serving of MonaVie RVL Nutrition Snack Bar between meals to satisfy your hunger.
- Step 3: Take one MonaVie RVL Dietary Supplement with your morning and afternoon snacks.
- Step 4: Eat a healthy, balanced dinner consisting of 500–600 calories. This meal should include a variety of vegetables, fruits, lean proteins, healthy fats, and complex carbohydrates.
- Step 5: Participate in a minimum of 30 minutes of physical activity most—if not all—days of the week. If you have any health concerns, please contact your physician prior to starting a weight management or exercise program.

REVEAL YOUR BEST SELF™

FREQUENTLY ASKED QUESTIONS

WHAT IS NUTRITION DENSITY?

There are three levels of nutrients that you need from food: macronutrients (carbs, protein, fat); micronutrients (vitamins, minerals); and phytonutrients (antioxidant rich nutrients). The MonaVie RVL weight management program provides all three levels of these essential nutrients, making it a healthy, nutrient dense choice.

HOW MUCH WEIGHT CAN I EXPECT TO LOSE ON THE MONAVIE RVL WEIGHT MANAGEMENT PROGRAM?

Healthy weight loss is 1–2 lbs. per week. Results vary by amount of weight you need to lose, diet, exercise, and adherence to the program.

DO I NEED TO EXERCISE WHILE I AM ON THE MONAVIE RVL WEIGHT MANAGEMENT PROGRAM?

Exercise and physical activity are important for many reasons. Incorporating exercise into your daily activity helps you be successful at losing weight. It's recommended to participate in a minimum of 30 minutes of physical activity most—if not all—days of the week. If you are just beginning to exercise, we recommend consulting with your physician prior to starting a new exercise program.

IS IT SAFE FOR CHILDREN TO USE THE MONAVIE RVL WEIGHT MANAGEMENT PROGRAM?

We do not recommend the MonaVie RVL Dietary Supplement for individuals under the age of 18. Children can consume the MonaVie RVL Nutrition Shake Mix and Snack Bar for their important nutritional benefits; however, if they are meant to be used for weight loss, we recommend consulting with a doctor prior to beginning any weight management regimen.

WHAT ARE THE BENEFITS OF LOSING WEIGHT?

Some benefits of weight loss and regular exercise include reduced stress, better sleep, maintenance of healthy cholesterol and blood sugar levels, improved cardiovascular function, and an overall sense of well being so you not only look better, but feel better as well.
